Bergen, 12th June 2008

Reference

Andrew Paul Ruddock was employed at Westec AS from 26/06-06 to 29/02-08 as a senior system developer.

Andrew has worked specifically with :

- Programming in C# and .NET 2.0 in Visual Studio 2005 together with MS-SQL 2005. This includes coding, testing and documentation.

This work was carried out in connection with Westec's participation in a development project of the next generation security system - CV. Andrew has worked closely with our British partner and supplier - Remsdaq Ltd - in the project.

The CV project is now in the launch stage and Andrew seeks new challenges, he leaves Westec of his own free will.

Andrew has performed his work at Westec in a satisfactory manner and we've welcomed his professional expertise and knowledge. He has been well liked by colleagues and partners.

Med vennlig hilsen,

Westec AS

Glenn Heggernes
